

MANUAL

Breakout Box Upgrade

SKU BBX-UG

FEATURES

Apex Compatible

Individual Ground Terminals

Durable Construction

Multiple Ports

Spring loaded Terminals

Wireless Plug And Play

Secure Mounting

Orange Accented

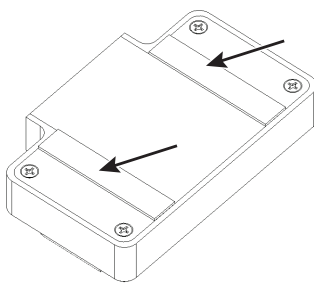

FUNCTIONS

The Reef Outfit Breakout Box Upgrade is exclusively designed to enhance the Neptune Systems Breakout Box functionality. It was meticulously designed to seamlessly fit the Neptune Breakout Box terminals with male pin connectors. It also adds an individual ground terminal connection for each one of the six inputs available. Spring loaded push buttons are user friendly and require no tools for connecting accessories, while providing a more secure connection.

INSTALLATION INSTRUCTIONS

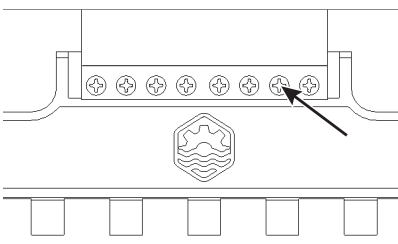

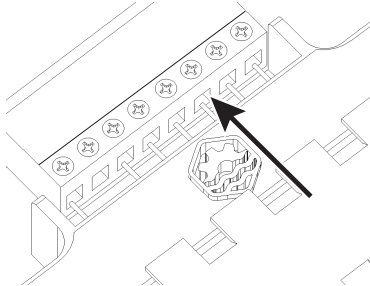

1. Fully loosen the ground and all six input terminals screws on the Neptune Breakout Box

2. Peel off the backing on the double sided tape on the back of the Breakout Box Upgrade body

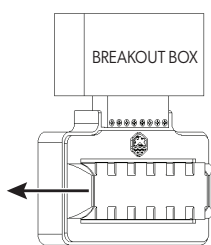

3. Align the pins on the Breakout Box Upgrade with the terminals on the Neptune Breakout Box and slide it in

4. Tighten all the seven screws on the Neptune Breakout Box completely

5. Make sure the mounting surface is clean and press the Breakout Box Upgrade against the mounting surface to adhere the tape.

SAFETY GUIDELINES

The Breakout Box Upgrade is safe for the saltwater aquarium environment but, as with any electronic device, care should be taken that it does not get wet.

FREQUENTLY ASKED QUESTIONS

Q . What Breakout Box is compatible with the Breakout Box Upgrade?

A. The Reef Outfit Breakout Box Upgrade was designed specifically for the Neptune Breakout Box.

Q . What are the red and black terminals for?

A. The black terminals are for your ground wire and the red are for the the input wires.
